# Unified WAN Services - Branch Agg

	Business	Technology	Operations
<b>ASR1000 Solution Benefits</b>	<ul style="list-style-type: none"> <li>Nurturing new business opportunities by adapting to new services, more bandwidth, and increased traffic loads at the Head-end</li> </ul>	<ul style="list-style-type: none"> <li>Based on multi-generational custom built network processor, QFP</li> <li>Scalable and modular control, data and IO plane design</li> <li>Integrated QoS, and HA</li> </ul>	<ul style="list-style-type: none"> <li>Ease of provisioning using industry standard Cisco IOS CLI</li> <li>Sub-50 ms failover times for both control and data planes</li> </ul>
<b>QFP Solution Benefits</b>	<ul style="list-style-type: none"> <li>Strategic, highly sophisticated network processor built in-house</li> </ul>	<ul style="list-style-type: none"> <li>Instant Services turn-on using QFP silicon</li> </ul>	<ul style="list-style-type: none"> <li>Faster qualification due to unified data plane architecture based on QFP</li> </ul>
